The Railway Stocks Rather Dull and Fluctuations Narrow - Some Local Demand for Corn.

At New York yesterday money on call was easy at 1 per cent.

Prime mercantile paper, 2% 65 per cent. Sterling exchange was weak, with actual business in bankers' bills at \$4.88@4.88% for demand and at \$4.86%@4.87 for sixty days; posted rates, \$4.88@4.89%c; commercial bills, \$4.8614@4.8656.

Silver certificates, 61%c. Bar silver closed at 63c per ounce; at London, 28%d. Total sales of stocks were 141,236 shares. The course of speculation in the share market was decidedly erratic, rallies and reactions succeeding each other in rapid order. Owing to the prevailing duliness the fluctuations were, as a rule, kept within narrow limits. Most of the business, especially during the morning, was done in the industrials, while St. Paul led the railway list in the transactions. Strength was imparted to the market at the opening by the receipt of buying orders from London, which included St. Paul, Louisville & Nashville, Union Pacific and Northern Pacific preferred. The first prices made even were generally a trifle higher than yesterday's closing figures, Chicago Gas being an selling up 1½ per cent. The general market advanced a fraction on moderate buying, and then sagged off as soon as the purchasing orders had been filled. Delaware & Hudson broke 1½; C., C., C. & St. L., 1½, and the other shares traded in, ½6%. Sugar, which had risen % in the early trading, fell off % on a small bear raid. The lower figures for this stock attracted buyers, and the old story to the effect that refined sugar will receive more protection than is given in the existing bill was revived, with the result that an advance of 11/2 per cent. was made, of which 1 per cent. was lost in the later dealings, the closing being at % per cent. advance on the day. ek the general list re ceded %21 per cent., New Jersey Central leading the decline, which was, however, checked before noon and a sharp upward turn recorded, in which Edison Electric was prominent, scoring a gain of 14. Chicago Gas, which had lost % of the early advance, rose 11/8 and Sugar 1 per cent. During the early part of the afternoon industrials were quite strong, Cordage common advancing 1%; Tobacco, 14 and the rest of the group a fraction except Cordage preferred, which made some rapid and big turns, selling off 315, to 43, the next sales being at 47 and 48, respectivethen following a break to 43 again, with a final rally to 45, making a net loss of 11/2 per cent. Sugar rallied % and then lost 1 per cent., Chicago Gas reacting 3 and Cordage %. The railway list was well held and during the last hour improved gradually, closing fairly firm but very irregular compared with yesterday's final figures. The changes are mostly frac-tional, but advances are established of 11/2

Lackawanna & Western and Louisville & New Albany, Westinghouse Electric sold at 78, against 401/2 the last previous sale. The railway bond market was weak during the greater part of the day, but closed firm, the main changes being: Declines-Colorado Midland fours, 11/2; Hocking Valley fives, 11/4; Delaware & Hudson, Louisville & New Albany consols and Southern Pacific, California fives, 1 each. Advances -People's Gas and Coke Company of Chicago seconds, 14; Akron & Chicago Junction firsts, 4; Chesapeake & Ohio railroad division seconds and Iron Mountain, each 1 per cent. Keokuk & Des Moines firsts sold at 99, against 95 March 1. Georgia Central collateral gold fives sold at 89, against 83 on April 9. Peoria, Decatur & Evansville firsts sold at 85, against 814 on April 9. Peoria, Decatur & Evansville division firsts sold at 85, against 77 on

The engagements for gold for Saturday's steamer already amount to \$2,500,000. It is likely that these figures will be increased, as one of the leading exporting houses expects to increase the amount of United States shipments. Messrs. Blair & Co. announce that subscriptions have been re-ceived for the entire \$2,000,000 of Cleveland, Loraine & Wheeling consolidated first mortgage 5 per cent. gold bonds, a large portion of which were taken by Baltimore Government bonds were firm. LOCAL GRAIN AND PRODUCE.

Rain Checked Trade Somewhat-Finetuntions in Values Slight.

Trade was not as active yesterday on the wholesale streets as on the three preceding days of the week, which was owing to the heavy rains of the early morning and the threatening weather through the day. Present indications are that April, like the three preceding months of the present year, is to make an unfavorable exhibit as compared with April, 1893. Commission men say that they are now doing a better business than in April last year. There has been a great demand for vegetables and such fruits as chanced to be on the market. In provisions more is doing in a jobbing way than in March. Prices are somewhat unsettled, but as the tendency is to higher prices retail men are purchasing more freely. Eggs are

LAYING THE CORNERSTONE.

Ceremonies at the Tuttle Home-Episcopalian Notes.

The ceremony of laying the cornerstone of the new Tuttle Home and Orphanage was observed yesterday afternoon at 4:30 o'clock. At that hour evening prayer was said in the Grace Cathedral, and at its close the bishop, clergy, choir and visitors formed a procession and went to the building next to St. Mary's Hall on Central avenue. The new building is to be a large three-story structure of pressed brick and stone. The ceremony of laying the stone was performed by Bishop Knickerbacker in the customary way. Short addresses were made by the Bishop, by Rev. J. E. Cathell, of Richmond, and by ex-Mayor Thomas L. Sullivan. With prayer the service was completed. The laying of the cornerstone marks an epoch in the life of the Episcopal diocese. Bishop Knickerbacker has been earnestly working for the home for a long time, and that a large part of the funds necessary for its erection have been raised speaks for the energy of those who are most interested in it. The lot for the home cost \$7,500. The building, with heating and gas fixtures, will cost \$11,100. The means are at hand for enclosing the building, \$6,000, and the Bishop hopes to raise the remaining \$5,000 before the summer is over. The sum of \$2,500 is asked as the part to come from the church people of this city, and the remainder from churchmen in other parts of the State. Mrs. B. F. Tuttle gave \$5,000 in memory of her husband. The building will accommodate twelve aged persons and will contain two wards where twenty-five children can be cared for. The house will be under the special care of the Sisters of the Holy Name, a sisterhood founded by Bishop Knickerbacker. The Sisters will devote themselves to the work without remuneration. Applications for admission have been received already.

The Bishop's Visit. Bishop Knickerbacker has been visiting in the southern part of the State. At Evansville he confirmed 28, at New Harmony Mount Vernon 11, Cannelton 12, Terra Haute 34, Rockville 1, Brazil 1. He has been absent about ten days. Friday he will go to Michigan City to attend a convention of the Brotherhood of St. Andrew, where sixteen chapters of the brotherhood will be represented. Mr. Hoghtly, of Chicago, Mr. Davis, of Philadelphia, and Mr. Wood, of New York, prominent men in the Brotherhood of St. Andrew, will be present, and will make addresses. A number of the ciergy and delegates will go Friday to attend the convention and remain over Sunday,

Bishop Thompson of Mississippi. Bishop Hugh Miller Thompson, of Mississippi, will be in the city over Sunday, the guest of Bishop Knickerbacker. In the morning he will preach at Christ Church, in the afternoon he will address all the Sunday schools at St. Paul's Church, and in the evening he will address the united

missionary societies at St. Paul's Church. Sunday School Institute. On May 14, of Whitsun week, the Sunday school institute will hold sessions at Grace Cathedral, afternoon and evening. The institute is composed of the superintendents and teachers in Indianapolis. Papers relative to the work of Sunday schools will be

AMUSEMENTS.

Park-Hart's Boston Novelty Co. Hart's Boston Novelty Company began a half week's engagement at the Park Theater yesterday afternoon and gave one of the cleanest and best vaudeville entertainments that has been seen on any of the local stages this season. The people in the company are nearly all new here, and the features, in the main, are original, novel and entertaining. The specialties are varied, refined and altogether free from anything objectionable. "The Circus Rehearsal" is a novelty that was well presented by the Riders, and Lillie Beach's popular musical selections were well received. The brothers Heeley are clever comedians and do a grotesque act that met with approval, while Ragan does a sensa-tional acrobatic turn. Foy and Vernon, a comedy team; Chulita, the dancer; the Rossleys, in Irish character creations; Max Millean and Dubois, with nonsense; Sharp and Flatt, musical team; Pierre Kronen, in a novel act: Charles Diamond, the premier harpist, and Corvatte Reyval, who does a remarkably clever specialty with electric-light effects, combine to give a decidedly attractive performance, and the two large audiences that saw the show were generous in applause.

Mr. Stem's Wagner Opera Festival. The sale of seats for Mr. Stem's Wagner opera festival on May 7 begins to-morrow morning at Wulschner's. Besides Herr Fischer, Francesca Guthrie Moyer, a dramatic soprano, better known in Europe than in America, will sing.

THE WHEAT PROSPECT

Reports from All States Save California Favorable.

Market for the Leading Cereal Heavy and Prices Falling-Provisions Weak, Pork Losing 27c.

CHICAGO, April 19.-Favorable crop reports caused weakness at both ends of the wheat market to-day, and May closed with a loss of %c. Heavy clearances and California drought caused the firm spot in the middle of the session and prevented a marked decline. Corn was generally firm for May and weak for July. The former in the end lost 1/3c and the latter about 1/3c. Provisions opened firm and closed weak at from 221/2c to 27c decline for the day in

The continued favorable reports of the growing wheat from every State but California started the market for that article rather weak at about yesterday's closing prices. Sellers were in the majority for a time, but the numbers of both buyers and sellers were very limited. Fluctuations for an hour were confined between 59% and 59%c for May and 61%c and 61%c for July. The export clearings from Baltimore amounted in wheat and flour to about 300,000 bu. On that May advanced to 60c and July to 62c. The total clearances from the four principal Atlantic ports amounted to 800,000 bu in wheat and flour, and that was the cause of slight additional advance, May selling up to 60% (160% and July to 62%c. The effect wore off about an hour from the close, and May dropped to 59%c and July to 61%c. The market closed weak at the lowest prices of

the day. Corn opened easy at 1/2c below its value at the close of the previous session. It ruled rather weaker for a time, but firmed again, and again weakened with wheat. Moderate buying caused the firmness. After a %c range May closed midway between the day's top and bottom figure. Oats were quiet and steady. Prices had

only 4c range. The feature of the early trading in provisions was the buying by Catlin of about 1,500 tierces of lard, which was sold a few days ago at a .52c higher price, and said at that time to have been put out for Wright. After that and some other short stuff had been covered, the early boom collapsed. Leopold Bloom was credited with selling out a good-sized line of long stuff, and it was being pressed quite heavily toward the end, causing weakness. Estimated receipts for to-morrow are:

Wheat, 75 cars; corn, 106 cars; oats, 173 cars; hogs, 22,000 head. Freights were slow at 1c for corn to Buffalo, 5%c to New York and 81/2c to New England. Leading futures

Uses for a Whisk Broom.

Few housekeepers know the value of whisk broom. When you have one that is half worn out and breaks off and causes much disaster in its legitimate work of clothes brushing, relegate it to your bath room and use it for cleaning the bath tub. It is quite as good as a scrubbing brosh, very much handler, and should the tub be enameled is not hard on the paint. A whisk, too, is infinitely better than the orthodox dust brush for stair carpets. It you use a whisk once you will be surprised

to find how much fresher and brighter the carpet looks without the expenditure of nearly so much time and labor. If you believe in the sweeper use a whisk to brush out corners and places which will not ad-mit the unwieldy but labor-saving Use a whisk to brush off cloth or chenille table covers and dust out tufted furniture. Keep one near the kitchen sink and brush it out frequently with ammonia and water.

Keep one for the kitchen range. In fact, once you commence to utilize whisk as a housekeeping aid you will find endless uses for it, because it is such a thorough cleaner and finds its way into the most remote corner. Nothing escapes it, and besides it saves your hands a great deal when used to clean sinks and bath

It has another advantage in not being unsightly. A whisk broom in a dainty holder may hang anywhere in the house, wherever you find one will be convenient, and not suggest the "nasty niceness" that would make one dread a housekeeper who followed in her visitors' wake with pan and brush.

GOOD ADVICE.

Every patriotic citizen should give his personal effort and influence to increase the circulation of his home paper which teaches the American policy of Protection. It is his duty to aid in this respect in every way possible. After the home paper is taken care of, why not subscribe for the AMERICAN ECONOMIST, published by the American Protective Tariff League? One of its correspondents says: "No true American can get along without it. I consider it the greatest and truest political teacher in the United States."
